

EASYPAY FINANCE

Help your customers when they need it most.

Using EasyPay gets you more returning customers because you're helping them:

- Save money - 90-Day Interest Rebate means if they pay off their balance in 90 days, they'll get a full interest rebate***
- Pay later - \$0 down required today
- Avoid surprises - EasyPay contracts are fully transparent so your customer is never caught off guard
- Sign anywhere and anytime - Convenient electronic signatures and mobile applications

IMPORTANT: Why EasyPay is Better than Lease-to-Own

- How do you rent a repair?
- Figuring out parts and labor ratios is complicated for your staff
- Lease multipliers (lease version of APR) are confusing for customers and can be more expensive leading to customers that may not return
- Customers don't like up front fees or down payments

Bottom line: EasyPay Finance results in happier customers that continue coming back.
