

## INTRODUCING THE INDUSTRY'S FIRST ARTIFICIAL INTELLIGENCE (AI) POWERED CUSTOMER ENGAGEMENT TOOL

AI is proven to drive revenue growth and elevate your customer experience.

Why? Because in our digital-first age, your customers expect instant responses beyond the constraints of normal business hours. There's no need to wait on hold or play phone tag with a business when better communication options are available.

[Openbay Otis](#) is the **first-of-its-kind** artificial intelligence (AI) powered virtual service advisor, built specifically for the automotive service industry. Using the power of AI, Openbay Otis works around the clock, no human intervention required. Otis converts your online visitors into paying customers by delivering quick responses, accurate service quotes in real-time and instant appointment booking.

You put the effort into optimizing your company website and driving traffic. Otis will do the work to get that visitor into your shop's door.

Otis is **fully customizable** to fit your operations, it works on any business website and it has multi-location capabilities.

As an Otis subscriber, you will have unlimited access to real-time Otis conversations and reporting metrics anytime, anywhere, from your smartphone, tablet or desktop device.
