

On the front side of this laminated sheet is a sample of both the BounceBack and Referral coupons.

One of each coupon will be mailed to each customer along with their Rebate Check and Thank You letter.

Please explain to your customer that they will receive these valuable coupons with their Rebate Check:

- The BOUNCEBACK coupon should be used by the customer when they have future maintenance or repair service performed.

Inform the customer that they can mail this coupon along with a copy of any (future) work order receipt to receive an additional \$10 Rebate Check.

- Ask the customer to give the REFERRAL coupon to a friend or family member to use for maintenance or repair needs.

The friend or family member can mail this coupon along with a copy of their work order receipt to receive a \$10 Rebate Check.

Both coupons are good toward any service performed at a Parts Plus Car Care Center, however, they CANNOT be combined with another coupon or used in conjunction with one of the Product Rebate Promotions.
